Team ID: PNT2022TMID10245 CS 1. CUSTOMER SEGMENT(S) 6. CUSTOMER CONSTRAINTS 5. AVAILABLE SOLUTIONS • By using natural language processing in MATLAB can Used in Web Browsers Cvber Security give the result accuracy of 95% • Banking Websites Accuracy • By applying Bayesian network, Stochastic Gradient Descent, Lazy K Star, Logistic model tree and • Military base systems Ease to Access Multilaver Perception in MATLAB/WEKP can provide an accuracy over 95% to 98% Handheld Applications Cyber Awareness • Defense and Air force J&P 2. JOBS-TO-BE-DONE / PROBLEMS 9. PROBLEM ROOT CAUSE 7. BEHAVIOUR • We Humans could not able to predict when attack • Developing the efficient application which can able to To Train the dataset and test it over multiple test cases prevent from any unauthorized means of activity. can occur. and predict the accuracy of the result and to build the model in website and cloud. Adding Anti phishing Any individual can gain knowledge about the issue Not only in websites, even in banking sectors and extension in browsers can make an alert to the users defense systems can't able to predict the attack. and this system/model can teach how to get cautious who are in dangerous website. when an attack can occur. • To solve all these problems this technique / solution has developed.

TR 3. TRIGGERS • Better Accuracy than other Models Feasible UI and UX EM 4. EMOTIONS: BEFORE / AFTER

• While training multiple datasets the memory efficiency is more so that it was trained in external SSD with high throughput.

 Time is consumed more on predicting the single dataset.

10. YOUR SOLUTION

• We use Decision Tree , Random Forest , Gradient Boosting algorithm using Python.

• Training and Testing the models with multiple datasets to overcome the accuracy level from existing algorithms.

• Build the model using python flask and host in web application using IBM cloud.

8. CHANNELS of BEHAVIOUR

8.1 ONLINE

In online we can surf any website by adding the extension of anti phishing so that we can be precautious.

8.2 OFFLINE

This is an online platform but in offline we can create an awareness at every public sectors.
